The Collum collection

designed by Morten Svendsen

The Collum dining table has a classic, but still modern design with beautiful curved legs. It matches any home interior from classic to modern. All venee products are lacquered and veneer topplates have extra strong lacquer. All solid tables are oiled.

The rectangular can be choosen with a fixed tabletop with solid edges and a smart integrated storage facility for extension leaves at each end and can be ordered with one or two extension leaves, or with a smart butterfly extension solution in the middle.

The super elips Collum table is beautiful with the curved shape and curved base. It open in the middle with a smart butterfly extension solution, it can not be easier, or you can choose a fixed version.

On the round Collum table the curved columns have been turned into a centre pedestal base that is a beauty. When the table gets extended the pedestal base splits into two and gives the table another striking look. Choose version for 2 or 4 extension leaves. Extension leaves have to be ordered separately.

The Collum sideboards, highboards and display cabinets represent a comprehensive range of cabinets in a soft organic design. All cabinets have a drinks/storage compartment on both sides with curved wooden doors fitted with a magnetic catch. The base of the cabinets has adjustable feet. All doors and drawers have soft-closing and the glass doors with push-release. The glass cabinets can be ordered with LED lights with sensor and dimmer. All cabinets are also beautifully veneered at the back, which means they can be free standing.

Collum collection, Artus chair, in light oak lacq..

Collum collection, Artus chair, in light oak lacq.

Dining table rectangular

Rectangular dining table with the possibility of extension at each end.
